HOME PAGE

Advantage Security & Multimedia specializes in the professional installation of security systems, home theater and audio systems, phone and intercom systems, lighting control, central vacuum systems, and computer network cabling. Our customers include homeowners and business owners (including builders) like you who want to feel secure in and make the most of their home and office environments. Since 1987, San Diego-based Advantage Security has installed more than 10,000 systems throughout Southern California, with a majority of sales originating from referrals by satisfied clients.

Fire & Alarm Systems — Protect yourself from burglary, fire and medical emergencies with our home security systems. They provide complete perimeter and interior protection, backed by 24-hour response from our locally owned and operated central monitoring station. You can also increase your home or business security with our access control systems and interior and exterior camera surveillance.

Home Theater — Enjoy all the excitement of movie-going in the comfort of your own home. We offer a variety of high-quality home theater components, including flush mount speakers and volume controls for superior sound reproduction.

Lighting Control — Control the lights in your home or office from any room, or even from your car! Our home dimming system allows you to see everything in the right light, from bright and efficient to soft and romantic.

Central Vacuum Systems — Create a cleaner, healthier home environment with our powerful central vacuum systems. Unlike conventional uprights, our system completely removes dust mites and allergens from your home living environment.

Computer Network Cabling — Work more efficiently with networked computers and printers in your home or office. Access the Internet or enjoy your favorite DVD on your laptop from any room in your house. We use Category 5 computer cabling and outlets to increase signal transmission speed and create a network for your specific needs.

RESIDENTIAL / CONSUMER BENEFITS

Ask any of our thousands of satisfied customers. You can rely on Advantage to provide you with the best systems and service. When you call on us, you will benefit in many ways:

- Avoid do-it-yourself hassles — We guide homeowners from start to finish during all projects so that you do not have to deal with different vendors and trades people. We also work closely with your general contractor, architect or designer to help make your whole experience go as smoothly as possible.
- Make the best decision — Before you decide on a system, attend one of our in-store demos to help you decide what's best for your home or office.
- Meet your needs and keep costs under control — We make sure that what we sell and install fits your specific needs and budget.
- Make the most of your system — Once you have installed a system, or systems, we will provide a free demonstration for you in your home or office so that you know how to use it.
- Get help quickly — Should you need our help with a system, we can draw from our team of technicians and respond quickly, which means less waiting time for you.
- Feel confident — If for any reason you are not satisfied with an installation, you can rely on our money-back guarantee.

FIRE & ALARM SYSTEMS

Why should you install an Advantage security system? Here are a few good reasons:

- Protect your family and home from fire — You can rely on your Advantage smoke and fire system to detect a fire hazard or small fire before it endangers your family, pets and house.
- Protect your business from fire — Detect a fire or fire hazard before it damages a business you have worked hard to create.
- Minimize damage and injuries — Whether fire, flood, earthquake or medical emergency, keep damage or injuries to a minimum with fast response from the fire department, police or paramedics.
- Protect your home and possessions from burglary or vandalism — Your Advantage security system will detect unwanted intruders and notify the police.
- Protect your business from intruders — Your Advantage security system will notify police if someone has broken into your place of business.
- Protect your home while you are away — Whether you are on vacation or a business trip, you won't have to worry about your home, knowing it is safeguarded against fire or intruders.
- Increase your peace of mind — You will feel better knowing you have done all you can to keep your family and home safe.
- Reduce insurance costs — A security system can help reduce your insurance costs, whether you are a home or a business owner.
- 24-Hour monitoring — Advantage security systems are backed up by a 24-Hour Monitoring Station so you can rely on immediate response to fire, burglary or other emergency.
